I am a dedicated and skilled Software Engineering student at IJSE - Institute of Java and Software Engineering, with a strong foundation in web development and business analysis. I have hands-on experience in developing responsive front-end applications using HTML and CSS, and I'm currently expanding my expertise by working on JavaFX applications with Hibernate integration. As part of the IJSE student committee, I'm involved in collaborative projects, showcasing strong teamwork and leadership abilities. I am passionate about building user-centric solutions and continuously improving my development skills to deliver efficient, high-quality software.
